

We have finished our inspection report on health care in Ashley.

Thanks to everyone who spoke to us during the inspection.

We made recommendations to the people who run Ashley to improve things.

Here is a quick summary of our report:

Physical health care at Ashley is good

Mental health care could be improved

The noise in the units is a problem – it makes it hard to hear and relax

More staff are needed at Ashley so you can get out of your room more

The exit packs have improved since our last inspection

Ask a youth worker if you want a copy of the full report. The report was given to politicians and put on our website, custodialinspector.tas.gov.au.

If you have questions call us on the Unity Phone:

- log in
- press 2 'CADL'
- press 'Custodial Inspector'

You can also speak to us next time we are at Ashley. We wear orange ID tags.
